

Quiz 2

Total Marks: 20

2 April 2024

Answer any TWO of the following. Each question is worth 10 marks (guideline: 400 words each).

1. Explore death as a theme in *Frankenstein*. How do people die, how frequently do they die, and what do you think death signifies in the text?
- ✓ 2. What are the Romantic and Gothic movements? Describe their features and explain which of these are found in *Frankenstein* and how they are depicted.
3. What are the different implications (good and/or bad) of Victor Frankenstein's demonstrated powers of creation? How are these implications understood by the three narrators of the text, and what position does the text ultimately take in relation to them?

NOTE:

1. This assignment calls for you to answer only two out of a total three questions. If you attempt all three, only the first two will be read and graded.
2. Do not use bullet points. Write in full sentences and paragraphs.
3. Explain your ideas and examples fully and remember to connect your examples clearly to the point you are trying to make.
4. Do not summarize the plot of a literary text. This adds nothing new. Your response should focus on your ideas and interpretations of the text.
